Late Model **Technical Bulletin**

Dated: May 31, 2017

Re: RUSH Late Model Chassis Specs

All competing RUSH Late Model teams must comply with rule #6 of the "Roll Cage & Frame" section of the RUSH Late Model Rule Book which states:

"All cars must be equipped with a tow hook and/or strap for the purpose of towing."

Our tow truck operators are tasked to provide a safe yet speedy service in clearing up incidents on the track. A lack of suitable tow hooks greatly hinders their efforts.

Thank you for your cooperation.
